

Microsoft® Office 365 Teams

Training Course Content: Microsoft Office 365 Teams provides a one-stop digital hub for teamwork and collaboration. It combines existing Microsoft technologies and applications woven together through Office 365. Teams provides a chat hub for users, a way to conduct online calls and meetings, and an easy means to collaborate and share files using other components of Office 365. Teams is an excellent tool for users to work together, regardless of location, and is appropriate for enterprise companies and small organizations.

Course Objective: Students will be able to learn how to communicate, collaborate, share content, and set up meetings to bring together your Teams.

Prerequisites: To ensure your success, each student should have a general knowledge of Microsoft Windows and Microsoft Office concepts.

Contact us to discuss if this level is right for you.

Delivery Method: Instructor-led, group-paced, hands-on classroom training with activities. Additionally, manuals are provided for each student for after class reference.
